

## Windows

Whether you're looking for sash and case, tilt and turn, reversible or casement replacement window, McLeod Windows can supply or supply and install all windows of those styles in Pvc-u, Timber, Aluminium or Aluminum/Timber composite. A vast range of colours are available for Pvc-u and Aluminum windows to suite style and taste.

Windows installed by our highly skilled employed fitting teams come with a choice of internal finishes to give the new window the finishing touch making the house a home. McLeods use the latest glass technology in its Eco Therm Energy Rated Windows increasing the thermal efficiency of your home and saving you money in the process. We are very proud that we were the first company in Perthshire to take the lead in offering the A Rated window to our customers, the industries highest achievable standard.

All of the windows supplied and installed come with a full company 10 year guarantee and using the latest security systems in our windows we aim to make your home as secure as it can be from intruders.

Visit our showroom today to see our full range of Energy Rated windows fully finished as they would be in your home and our friendly team at our Head Office and Showroom complex are on hand to offer the best advice to make sure you get the right product for you.
