

Conservatories

THE conservatory provides any home with a room for all seasons and the high standard of our conservatories ensure they can be used and enjoyed as much in the height of summer as in the depths of winter. McLeods provide a service second to none, handling and advising on all aspects of design, planning and installation.

McLeods install traditional conservatories in Victorian, Edwardian and Lean To styles. But knowing every home is different, we offer a popular bespoke design service to tailor-make a conservatory to suit any home. Using only the finest construction products and fully qualified, experienced tradesmen, we create a conservatory to add value to your home. The only thing to concern the client?... “What type of furniture do I choose?”
